PROGRAM HIGHLIGHTS

PANEL DISCUSSION

WHITHER DOCTORS

" WITHIN and WITHOUT "

(This discussion is aimed at addressing the disillusionment amongst members of the medical fraternity and also analyse the prevalent antagonism of certain sections of society towards healthcare providers)

Participants: Mr Jayadeva Sarangi

Dr Ashok Rajgopal.

Dr Kavita Singh

Dr K Anand Iyer.

Ms Aarti Dhar

Dr Mukul Kapoor.

Dr GN Shenoy

Dear Members of Anaesthesia Fraternity ,

As we come to the last event of this years annual rotation of academic meetings—the ISACON DELHI 2017 , Dr SM Sharma & team would like to thank each and every member for the immense good will and support extended to us throughout this year . ISACON DELHI has a very long tradition, going back to 56 years. Each passing year has seen the ISA Delhi forum grow from a double digit membership to more than one & half thousand now. Not only have the numbers grown, so have the skills , knowledge , specialisations increased . This vast growth comes together as a celebration of sorts each April ,as ISACON . " 56" years of uninterrupted academic and social gathering, every year ,steered by the hands of very capable people who gave momentum to all of us to evolve . I've heard great stories of the doyens of anaesthesia in Delhi ... Dr BL Bhattacharjee

Dr Fakir Chand, Dr Manorama Mittal, Dr VP Kumra , Dr A Bhattacharya , Dr Gode , Dr HL Kaul.

Great leaders all, and many more ...

Let us all come together to carry the torch further,

Let us all takeout time to attend ISACON,

Let us all ensure we encourage all our colleagues and juniors to attend ISACON .

Only by our presence can we strengthen our Society.

The above mentioned discussion aims at addressing grave issues which affect us, especially our younger colleagues who are the first interface with the patient . A resolution will be drawn up and forwarded to concerned authorities for needful corrective action. So please, at this moment, when each one counts, do come and standup for each other.

Thank you.

Team ISACON DELHI 2017

Please spread word to all Anaesthesiologists within your ambit .
